Block & Tackle Balances

PRODUCT BULLETIN

Block & Tackle Balances

Effective immediately, Minnkota Windows™ will produce Double Hung and Single Hung windows with Block and Tackle Balance systems. The spiral balances used previously have become a limited use item, affecting their availability.

- **Multiple Suppliers** – better at keeping costs down
- **Easier in the Field** – a simple number on the “tube” and one screw. No colors and no special tools
- **No Lubricant Issues or Dust Collection Issues** – cleaner
- **High Performance Music Wire** –consistent, dependable spring operation
- **Quiet Sash Operation**

LENGTHS: 6” – 46”

WEIGHT RANGES: 2-45 lbs.

For more information on the use of Block & Tackle Balances, contact your Territory Manager or call Minnkota Windows' main office.
