

Euro In-Swing Casement and Picture Windows

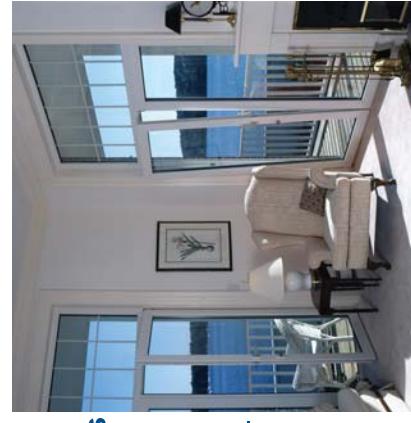

This versatile tilt-turn design is three windows in one. Closed, it has the look and performance of a picture window. A turn of the handle allows it to tilt-in from the top to provide ventilation of a hopper design. One more turn and you have an inward-opening window that is easy to clean. The 3 1/4" frame is fusion-welded for strength and durability and comes standard with 1" oa. insulated glass unit. Concealed hinges and multi-point locks improve aesthetics and security.

Euro French, Tilt & Slide and Full View Doors

Nothing has more impact on the look of a home than its windows and doors. It has never been more true than with the Euro Series French and Full View Doors. These tilt-turn units offer

the performance of an efficient window in an in-swing door. Their perfect blend of performance and aesthetics will make any home the talk of the neighborhood. Twelve locking mechanisms deliver unmatched security when compared to most hinged door units. Fusion-welded frames and sashes offer performance, strength and durability in a well-insulating multi-chambered design.

The French, Tilt & Slide and Full View doors come with standard 1" oa. insulated glass unit with the option of 1 5/16" oa. triple pane available.

Midwest Built. Midwest Tough. Guaranteed for Life.

Sliding Patio Door

Sit down and relax. The dual weather seals and a co-extruded sash and glazing stop that reduces water penetration in our door shuts out whatever nature brings, summer or winter. The fusion-welded sash and frames with multi-point locking handle add strength and security.

The doors feature adjustable, self-lubricating tandem brass rollers, ensuring a smooth operation and a 1" o.a. insulated glass unit for greater energy savings.

Eliminate the need for bulky window treatments with Blinds Between the Glass (BBG) in your Minnkota Windows™ standard size sliding patio door. The BBG is within the sealed glass unit and offers privacy and climate control in a clean, efficient look. Safe for pets and children with easy operation for years of beauty and reliability.

Our double hungs combine an attractive design with safety, security and the convenience of having all sashes tilt inward for easy cleaning.

You can even select the optional woodgrain interior for the warmth of wood with all the durability and ease of maintenance with vinyl.

Double Slider

If you're looking for utility and ease of operation, Minnkota Windows™ has a perfect match with our classic double slider. They're convenient, stylish and guaranteed to operate effortlessly for the life of your home. The double slider includes tandem brass rollers and lift-out sashes for easy cleaning. It's fully integrated meeting rail and weatherstripping limit air infiltration so the cold air stays outside where it belongs.

Bays & Bows

Add light and space to any room with a bay or bow window. These classic treatments add a view to your living room or open up your family room. Either way, you can relax in comfort knowing both styles feature Minnkota Windows™ impeccable production and careful attention to detail.

All bays and bows include unfinished oak or maple head and seat boards and support cables for installation. Several configuration options allow construction of a bay or bow unit specific to your home.

Double Hung

Casement

The classic detailing and state-of-the-art engineering built into our casement and picture windows gives years of carefree enjoyment. They are available in numerous styles with custom accessories. You always get the right window to suit your taste and performance requirements.

Our unique triple-seal system with multi-chambered profiles offer superior thermal efficiency. What's more, fusion-welded frame and sashes impede leaks, add strength and keep the window "in square" for years of trouble-free use.

Awning

Perhaps most appreciated by homeowners, is our maintenance-free vinyl. It resists corrosion, peeling and wipers clean easily with just mild soap and water.

Awning windows, in addition to casement and picture windows, are available in both dual and triple pane glass options. A perfect fit above the kitchen sink. The awning offers trouble-free operation while keeping the elements where they belong: outside.

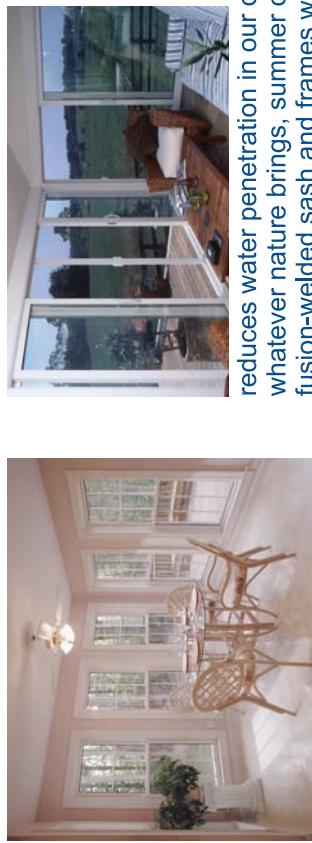

Specialty Shapes

Let your creativity soar to new heights. Change design lines, convert a drab wall into an attractive source of natural light. Minnkota Windows™ can bring your wildest designs to life and solve your most difficult design challenges. We'll build to your specifications and that will allow you to enjoy the accolades and beauty for years to come.

Our double hungs combine an attractive design with safety, security and the convenience of having all sashes tilt inward for easy cleaning. You can even select the optional woodgrain interior for the warmth of wood with all the durability and ease of maintenance with vinyl.

Double Slider

If you're looking for utility and ease of operation, Minnkota Windows™ has a perfect match with our classic double slider. They're convenient, stylish and guaranteed to operate effortlessly for the life of your home. The double slider includes tandem brass rollers and lift-out sashes for easy cleaning. It's fully integrated meeting rail and weatherstripping limit air infiltration so the cold air stays outside where it belongs.

Single Hung

Our single hung has fusion-welded frame and sash corners, a feature recognized by experts as superior to mechanically fastened corners. It features a tilt-in sash for easy cleaning and double weatherstripping for improved thermal efficiency. The 3/4" insulated glass unit improves U-Factors and 3 1/4" frame is ideal for replacement window applications.

For years, builders and homeowners sacrificed durability to get windows that looked good.

Minnkota Windows™ single slider window is designed with clean, simple lines that make them a pleasure to look at, yet have all the quality features needed to stand the test of time. It features a lift-out sash for easy cleaning and brass rollers for smooth operation.
